## PROJECTS

### Movie Web

**Link:** <https://netfake-movie.vercel.app>

**Source code:** <https://github.com/tandat0723/movie-web>

(This project used API available with themoviedb)

- The project was built using React and Vite, with user interfaces styled using the Chakra UI library.
- Used Firebase Authentication to handle login/signup and Firestore to store user-related information.

### Restaurant Web

**Link:** <https://benthanhrestaurant.vercel.app>

**Source code:** <https://github.com/tandat0723/my-restaurant-web>

- Developed a project using pure HTML, CSS, and JavaScript without any external frameworks.
- Using libraries such as Normalize.css, AOS, Slick Carousel, and BaguetteBox to enhance visual aesthetics, improve user experience, and accelerate development.
